

Take Action

To Protect Local Health Care

“The Ontario budget will result in harsh cuts to local health care services. After years of corporate tax cuts and tax giveaways for the wealthy, the Ontario government is now trying to resolve the deficit on the backs of the sick and elderly.

We already have a severe shortage of hospital beds and unprecedented hospital overcrowding. There are more

than 30,000 people on wait lists for long-term care homes. We also have a privatized home care system that fails to meet the basic needs of Ontarians. Yet more cuts are on the way.

It is urgent that ordinary Ontarians from across this province stand up to protect universal and fair access to public non-profit health care for all people in need.”

Natalie Mehra, Director of the Ontario Health Coalition

Wednesday June 6, 7:00 pm

CAW 195/2458 Union Hall, 3400 Somme Ave. Windsor

Featuring:

- Jim Stanford, economist • Gary Parent, community activist
